Braided Power Cords, Heating Element & Iron
Thermostat

Balaji Enterprises

Manufacturer of DuPont Approved
PTFE Coating for Toaster and Iron
Heating Plate

25+ YEARS OF
EXCELLENCE

OUR WORK PROCESS

THIS IS HOW WE DELIVER EXCELLENCE

PROTOTYPING

We transform concepts into tangible products through prototyping. This stage involves creating physical models for testing and refinement.

PRODUCTION

Our state-of-the-art facilities bring our designs to life. We employ advanced manufacturing techniques to create reliable and efficient appliances.

START

FINISH

R&D

Our innovation begins with research and development. We identify consumer needs, explore cutting-edge technologies, and design products that enhance daily life.

SOURCING

We carefully select high-quality components and materials from trusted suppliers to ensure optimal performance and durability.

QUALITY CHECK & TESTING

Every product undergoes rigorous quality control and testing to meet our stringent standards and exceed customer expectations.

BACKWARD INTEGRATION

1

Latest Motor Production Plant

2

PVC & Cotton Braided Power
Cord & Plug.

3

Thermostat & Element for
Appliances

4

Conveyorized Powder
Coating

5

DuPONT Approved PTFE
Coating Plant

6

Soft-Anodization Process Plant

7

Molding Unit and Well Equipped
Tools Room For new Moulds.

8

Element Brazing for Electric
kettles

9

Sheet Metal Press-Shop

10

ICT Glass Printing and
Baking Oven
